DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to independent claim 1, the prior art either alone or in combination fails to disclose, teach or suggest a flexible gap covering assembly particularly comprising: an upper covering comprises two parts which are arranged above one another and are fixedly connected with one another in a joint overlapping area, and wherein at least one tensioning element is applied to the joint overlapping area on a side facing away from a vehicle occupant compartment when installed in a motor vehicle. These structures in combination with other structures as recited in claim 1 define over prior art of record.

With respect to independent claim 19, the prior art either alone or in combination fails to disclose, teach or suggest a flexible gap covering assembly particularly comprising: an upper covering comprises two parts which are arranged above one another and are fixedly connected with one another in a joint overlapping area, and wherein at least one tensioning element is applied to the joint overlapping area to apply tension to thereby maintain a visually attractive low-wrinkle appearance of the flexible gap covering during adjusting movements of the steering column. These structures in combination with other structures as recited in claim 19 define over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
